**SEED POTATOES**

We are making a rather radical departure from our long period of years of rather intensive seed potato operations in offering **CERTIFIED SEED POTATOES** from the **CANADIAN PROVINCES**, as well as **SECOND CROP** Potatoes from New Jersey. The noteworthy results by our own experiments on our own farms as well as the large number of experiments noted by some of the best potato growers in the East, which in every case have shown the Canadian Certified seed giving such added yields and so free from disease, that we unhesitatingly recommend this seed. We are also handling Aroostook County, Me., grown seed, the quality of which also is improved materially from previous standards. The Canadian Government agricultural experts refuse to certify any seed potatoes which contain a sum total of more than 3% disease of every kind. The product, therefore, is about as near rust-proof and disease-proof as it is possible to produce.
